

PART ONE

Vision & Problem

Establishing our core mission and the challenges students face abroad.

COMPANY VISION

What is our mission?

Connect study abroad students with their new home.

Help students feel at home in a city they are still getting to know.

THE CHALLENGE

What is the problem?

Difficult Navigation

A new city can be hard to navigate on your own without local guidance.

Disconnection

Incoming students struggle to find suitable places. Until they do, home doesn't feel like home.

PART TWO

Operations & Execution

Our internal goals, infrastructure, and competitive differentiation.

OUR STORY

Why did we start?

As a multicultural team from all over the world, we found ourselves studying in cities we had never been to before.

We experienced firsthand the initial disorientation, the struggle to find reliable local points of reference, and the stress of settling into a brand-new place. That's why we started Corners: to turn that feeling of being lost into a smooth, organized arrival.

EXECUTION STRATEGY

How are we going to get there?

Collaboration with companies, brands, universities, and students.

We know this cannot be built alone. Leveraging maximum external help and strategic partnerships is essential to craft the best possible product.

PART THREE
